

County Auditor Completes Report of Taxation

Total Amount To Be Collected Is \$1,425,491.07 Which Is A Big Increase.

County Auditor John Guy has just completed his final report on the total amount of taxes to be collected for the ensuing year. The assessor's valuation of Utah county was \$39,911,389, and the corporate property as assessed by the state board of equalization was \$17,171,489, making the total valuation of the county \$57,082,878. The total amount to be collected by the county treasurer is \$1,425,491.07, which in most instances is an increase over last year. The greatest increase is probably in some of the school districts where extensive buildings and interest on bonds have had to be provided for. This is true also in Provo city and in the Provo city schools.

The apportionment throughout the county is as follows:

State and state schools.....	\$284,594.27
State road.....	142,767.19
State bounty.....	4,791.10
Utah county.....	191,245.26
Lehi city.....	24,436.26
Alpine city.....	2,273.93
American Fork city.....	10,510.08
Pleasant View precinct.....	1,382.22
Orem town.....	4,837.68
Provo city.....	105,191.37
Provo schools.....	84,153.10
Springville city.....	27,522.60
Spanish Fork city.....	23,952.07
Mapleton town.....	3,728.76
Payson city.....	22,838.92
Salem town.....	2,944.21
Santaquin town.....	4,924.56
Goshen town.....	797.47
Genola precinct.....	2,277.64
Alpine school district.....	200,445.33
Nebo school district.....	258,784.75
Total.....	\$1,425,491.07

SEPTEMBER CROP REPORT FOR UTAH AND THE UNITED STATES

M. M. Justin, Agricultural Statistician.

The month of August made little change in crop prospects in Utah the generally favorable conditions continuing throughout most of the state.

As cutting progresses spring wheat prospects are somewhat poorer but still greatly in excess of last year. Oats are also much more promising than a year ago fulfilling the earlier forecasts. Corn is well up to average and harvesting for silos is beginning. Barley prospects are practically unchanged with a promise of 752,000 bushels.

Potatoes show a slight decline to a forecast of 3,181,000 bushels, which is 33 per cent more than last year. Sugar beet prospects are unchanged. The promise of a record crop continues. Truck crops show no material change in prospects. Beans, tomatoes and onions are all slightly above average and cabbages are about average in condition. The watermelon crop is estimated at 93 per cent of normal and the muskmelon production is 95 per cent of normal. Sorghum cane declined in condition because of drouth and flood in Washington County.

Fruit has made good progress. Apples promise 80 per cent of a normal crop or 980,000 bushels. Peaches are estimated as producing 55 per cent of a full crop or a total of 825,000 bushels. Pears are rated at 855 per cent forecasting a production of 59,000 bushels.

Hay production is nearly 50 per cent larger than last year being estimated at 1,471,000 tons compared with 1,035,000 tons last year. The average yield per acre of all tame hay is estimated as 2.75 tons. Timothy averaged 2.00 tons, clover 2.40 tons, alfalfa 3.00 tons, and wild hay 1.30 tons per acre. Pasture and ranges improved somewhat in August because of rains.

The number of stock hogs is only 90 per cent of last year or 102,000. This is a percentage decrease slightly greater than that shown by the entire country where the number is now 56,459,000 compared with 62,073,000 last year.

The wool production of Utah is estimated as 16,150,000 pounds this year. The revised estimate for last year is 17,000,000 pounds.

Cedar Fort Items

By Mrs. F. N. Berry.

Mr. David A. Berry and Mr. and Mrs. Joseph Colton and family autoed to Eureka Sunday.

Miss Mary Gann has returned home from Provo where she has been visiting the past two weeks.

Dale, the five-year-old son of Mr. and Mrs. W. L. Berry fell from a house September 17th and broke his right arm just below the elbow.

Misses Vinnie Hacking, Melba Cook, Fay and Fern Anderson and Messrs. Myron Hales and Elliot Sabey of Cedar Fort, are attending High School at Lehi this season, and Miss Catherine Cook is attending at American Fork.

Mr. and Mrs. R. H. Smith's five-year-old daughter, Margaret, narrowly escaped being burnt severely September 20th. The little girl struck a match which caught her clothing burning her leg above the knee quite badly. The mother heard her screams and extinguished the flame before further injury resulted.

Stake Institute In Session

A six day institute for church officers of the Alpine Stake is now in session at the Alpine Tabernacle at American Fork. Tuesday the educational meeting commenced and sessions will be held daily throughout the week closing next Sunday, September 26th. The purpose is to give instruction pertaining to the work of the various organizations of the stake.

The plan of officers in charge is that each ward in the stake have at least three delegates in attendance all six days—one for each of the courses—Teachers' Training Work, Social and Recreational Work, and Charity and Relief Work. It is also expected that the President of the Relief Society of each ward, or one of her counselors, shall take the course. Wards may send any other delegates whom they think would be suitable for either course.

Daily Program

A. Morning.
9:00-9:30—General Assembly—Devotional Exercises (All three groups).
9:30-10:30—Course in Psychology (All three groups).
10:30-11:30—Course in Education (Teacher-Trainers).
10:30-11:30—Course in Sociology (Social and Recreational Leaders and Charity and Relief Workers).
11:30-12:15—Lecture Course (Social and Recreational Leaders and Charity and Relief Workers).
B. Afternoon: Departmental Meetings.
1. Teacher Training.
1:00-2:00—Recitation.
2:00-3:00—Practice-teaching.
3:00-4:00—Recreation (with other two groups).
4:00-5:00—Recitation.
2. Social and Recreational Leadership.
1:00-2:00—Seminary in Leadership.
2:00-3:00—Pageantry and Dramatics.
3:00-4:00—Physical education and games (with other groups).
4:00-5:00—Music.
3. Charities and Relief Work.
1:00-3:00—Methods in family welfare work.
3:00-4:00—Recreation (with other two groups).
4:00-5:00—Readings in social work.

All lovers of good music and high class entertainment should not fail to hear The Great Shirley Concert Co. A company of picked artists from different parts of the United States. The company, all ladies but Mr. Shirley, make up the orchestra for the accompaniment of Mr. Shirley's solos, and each do some specialty making the entertainment one of the most varied and entertaining on the road. Mr. Shirley, Saxophone King and Instrumentalist, is an entertainer of true merit. He is a composer, and arranges and orchestrates, all the music used by his company. All the other members are experienced instrumentalists and entertainers. Royal Theatre, Saturday, September 25. adv.

LEARN TIRE REPAIRING FREE

This is the opportunity that the Goodyear Tire & Rubber Company of California is offering to persons desiring to "set up for themselves" in a business that is advancing by leaps and bounds.

After a month of actual operation the School of Tire Repairing at the Los Angeles Goodyear plant is gaining a momentum as a practical means of furnishing valuable instruction concerning the actual repair and vulcanization of tires.

Three classes have already been graduated after receiving a three weeks' course in shop work and lectures. Each graduate is issued a vulcanizer's certificate to the effect that he has satisfactorily completed all requirements for a competent and proficient tire repair man.

There are surprising opportunities for first class repairmen everywhere, due to the unprecedented advance in automobile use. Millions of tires offer opportunities for the repairmen and his art.

Recent investigation shows that motorists have more than ever this season applied the old truism, "A stitch in time saves nine." The principle is as old as the hills but its application to the use of tires is comparatively new. The most insignificant repairs if made in time, often mean thousands of miles of service.

To reduce motoring cost in these days of H. C. L. car owners who formerly gave little attention to their tires are bringing them to the repairman for his diagnosis, and it is surprising how a simple repair will add mileage to an old tire, all of which means jingling dollars in the motorist's pocket and good business for the vulcanizer.

The Goodyear tire repair school furnishes a complete, practical course beginning with fundamentals up through every step in scientific tire repairing under working conditions.

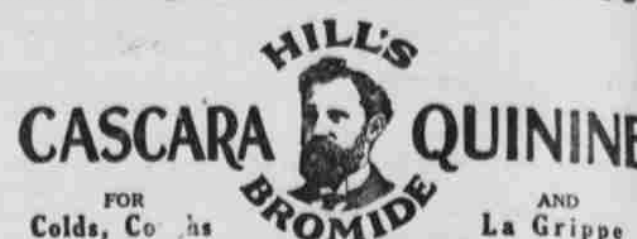

that closely approximate those in the average tire repair shop.

J. R. Wells, manager of the school, states that accommodations can be made for all persons desiring the course and that quite a number of new students can be added at once. Tuition is absolutely free and the course is open to all. No greater opportunity to gain experience in one of the best paying business in the country has been extended to westerners.

than this offer of the big tire pany to furnish free instruction in tire repairing.

Classes start every Monday morning under the direction of instructor G. H. Irwin, who is a graduate of the Goodyear school at Akron, O. Further information concerning the activities of the Tire & Rubber Company of California, Los Angeles.

Kill That Cold With

Neglected Colds are Dangerous
Take no chances. Keep this standard remedy handy for the first sneeze.

The Benefits of Running Water

If you would count the steps and the minutes required to carry all the water you need every day, you would discover an enormous waste.

Running water piped to those places where needed would save all that time and energy and pay for the piping many times over.

We will gladly estimate the cost of labor and material for you. Ask us.

At Your Service

It's a big job to render telephone service to this great Rocky Mountain region. It's a big territory, embracing as it does, over one-fifth the land area of the United States.

It requires more plant, more miles of wire per unit of population than is required in any other portion of the United States. The reason lies in the fact that while our territory embraces 22 per cent of the land area of the country, it contains only 3 per cent of the population.

There is enough telephone wire in service in this area to circle the globe thirty times—over 740,000 miles.

Attached to this network of wires there are 300,000 telephones serving the patrons of our System.

About all the subscriber ever observes of this great System is the telephone on his desk, and that looks so simple, yet it contains 205 separate parts.

Nearly 50 million dollars are invested in the System—in buildings, switchboards, cable, conduit, poles, wire, tools, etc.

Seven thousand faithful men and women are employed to operate and maintain the System at a cost of over 8 million dollars a year for salaries and wages.

It's a great, comprehensive system of communication at the service of the people of the Rocky Mountain West.

The Mountain States Telephone and Telegraph Company

YOU certainly want to save money, and you would like to have better bakings. Then use Calumet. It's the biggest thing you can do to improve the quality of your bakings—and lower baking costs.

Calumet is made in the largest, most sanitary Baking Powder Factories in the World. No Baking Powder is made under better conditions—none can be better in quality.

It contains only such ingredients as have been officially endorsed by the U. S. Pure Food Authorities. An absolute guarantee that it is pure.

RAISES THE QUALITY—LOWERS THE COST OF ALL BAKINGS

It received highest Awards, World's Pure Food Exposition, Chicago—Paris Exposition, Paris, France—positive proof of its superior merit.

It is used by more housewives, domestic scientists and chefs than any other brand. That would not be the case, if it were possible to secure a higher quality leavener.

It is sold at a moderate price. All you have to do is to compare costs to determine how much you can save by buying Calumet.

Pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. instead of 16 oz. cans. Be sure you get a pound when you want it.

Calumet Cream Cake Recipe

—3 cups pastry flour, 3 level teaspoons Calumet Baking Powder, 1/2 cup butter, 1 1/2 cups granulated sugar, 2 yolks of 3 eggs, 1/4 cup cold water, Whites of 3 eggs, 1 teaspoon orange extract. Then mix in the regular way.
